Pellet Content

- Vitamin A, Vitamin D3, Vitamin E.
- Manganese, Zinc, Iron, Copper, Iodine, Selenium, Cobalt and Salt.
- Cereal Grains (Wheat/Barley), Lupins, Mill Mix, Lime Salt and Minerals.
- Specific ingredient additives are available on request. i.e. Mag Oxide, Bicarb and Buffers.

This product does not contain restricted animal material or urea and this feed should be fed only to dairy cattle.

Feeding Rates

Feeding rates should be adjusted to suit pasture availability, roughage quality, stage of lactation and level of milk production. Feeding rates should be increased when there is little or no green pasture available, roughage quality is low, in early lactation, and for high levels of milk production.

It is important to ensure good quality, clean water is always available and that troughs are cleaned daily.

Daily Feeding Rates

Should be adjusted to
Summer/ Autumn
Winter/ Spring

Kettridges operates a Quality Management System Feedsafe accreditation No 45
