Kettridges Dairy & Beef Feedlot Vitamins and Minerals Concentrate Pellets

Nutritionally balanced to improve performance of home grain mixes, Kettridges Dairy/Beef Feedlot Vitamins and Minerals Concentrate is designed for dairy farmers and cattle feedlotter who choose home grain mixing as their feeding option. This concentrate should be added to your grain to supply the correct nutritionally balanced ration for optimum performance.

It contains calcium, phosphorus, sulphur, sodium, copper, cobalt, selenium, zinc, manganese, iodine and vitamins A, D & E. This product can be customised to meet your individual needs. To have a customised product formulated to suit your farm please contact the sales staff at Kettridges for prompt attention.

This product does not contain restricted animal material. It should be fed only to cattle. Do not feed to horses or dogs (For animal treatment only).

This product is best stored under cool and dry conditions and used within 6 months of production date.

All customised feeds are designed by our nutritionist who is available to our clients.

It is important to ensure good quality, clean water is always available and that troughs are cleaned daily.

Kettridges operates a Quality Management System Feedsafe accreditation No 45
