Kettridges Pullet Grower Crumble

Pullet grower crumble is designed to give strong nutritional support to the early growth of your young layer pullets from 6 weeks to 17 weeks of age.

Ingredients may include

Wheat, oats, canola meal, lupins, peas, meat meal, lysine, methionine, vegetable oils and vitamin and mineral premix.

Benefits

- Formulated to economically meet the protein, energy and mineral requirements for growth and body development.
- Pelletised and crumbled to prevent selective feeding and ensure strong bird development with feed that has minimal dust and minimal wastage.
- All raw materials are checked on receipt to ensure product safety and high standards are maintained.
- Coccidiostats may be added to assist coccidiosis control.

This product contains restricted animal material - DO NOT FEED TO CATTLE, SHEEP, GOATS, DEER OR ANY OTHER RUMINANTS. TO BE FED TO LAYERS ONLY!

This product is best stored under cool and dry conditions and used within 6 months of production date.

Feeding Directions

Feed your young flock ad-lib from 6 weeks to 17 weeks of age and expect birds to consume up to 75 grams per bird per day at 12 weeks.

It is important to ensure good quality, clean water is always available and that troughs are cleaned daily.

Kettridges operates a Quality Management System Feedsafe accreditation No 45
