This product does not contain restricted animal material. It should be fed only to deer. (For animal treatment only).

This product is best stored in cool and dry conditions and used within 6 months of production date.

Feeding Rates

This feed should be fed ad-lib for optimal performance and feed conversion. Feed with hay, straw or silage for roughage on ad-lib basis at all times.

The recommended introduction to this ration is to ensure that deer are not hungry prior to feeding Kettridge Deer pellets and roughage should be provided without restriction.

It is important to ensure good quality, clean water is always available and that troughs are cleaned daily.

Kettridges operates a Quality Management System Feedsafe accreditation No 45
