Kettridges Budget Layer Pellets

Budget Layer pellets are designed to give nutritional support to enable your hens to lay to their potential.

Ingredients may Include

Cereal grains, Lupins, Canola meal, Meat meal, Lime salt, colour, vegetable oils and vitamin and mineral premixes

Benefits

- High nutrient density to support optimal egg production.
- 14% Protein and amino acid balancing to maximise eggs size and number
- Calcium and phosphorous levels formulated to match the egg shell hardness requirements of birds at egg production.
- Pelletised to prevent selective feeding and minimise bacterial cross contamination.
- Colour added to match egg yolk colour consistency.
- All raw materials are checked when received to ensure product safety and high standards are maintained.

This product contains restricted animal material - DO NOT FEED TO CATTLE, SHEEP, GOATS, DEER OR ANY OTHER RUMINANTS. TO BE FED TO LAYERS ONLY!

This product is best stored under cool and dry conditions and used within 6 months of production date.

Feeding Directions

Feed your flock from 18 weeks of age through to the end of their laying cycle and expect your birds to consume between 100g and 120g per bird, per day as influenced by environmental conditions.

It is important to ensure good quality, clean water is always available and that troughs are cleaned daily.

Kettridges operates a Quality Management System Feedsafe accreditation No 45
